Friends of the Clearwater

Mission

Preserving, protecting and defending the forests, waterways and wildlife in the wild heart of north-central Idaho.

Vision

We envision lasting protection of Idaho's vast, intact Wild Clearwater Country to preserve the region's unique, wild ecology and its flora and fauna, and to contribute to climate stability.

Values

Friends of the Clearwater has adopted four guiding values.

- Love of the natural world: We adhere to a strong environmental ethic; we are guided by reverence for and a sense of wonder about the entire Wild Clearwater Country ecosystem.
- Community: We seek connection among people and between people and the natural world. We express this value by acting with humility, communicating respectfully, engaging in educational and community-building efforts, and focusing on the common good of all species.
- Unwavering commitment: We are consistently focused on our vision. We are feisty and persistent.
- Integrity and truthfulness: We communicate in a transparent fashion and are guided by facts, the best available science, and rational thinking.
